

SUMMARY

During my studies, I gained hands-on experience in web development projects, demonstrating attention to detail, problem-solving skills, and the ability to build visually appealing and functional websites. I am quick to adapt, eager to continuously improve my skills, and motivated to contribute to impactful projects in an international company.

WORK EXPERIENCE

Administration of Georgian Government
Full Stack Developer
03/2025-Present

- Built and maintained internal web applications to streamline government administrative processes using **React (TypeScript)**, **Next.js**, and **ASP.NET Core / Node.js (Express.js)**.
- Managed client and server state with **Redux Toolkit** and **React Query**, improving data consistency, performance, and user experience. Implemented performant, scalable data tables using **React Table**
- Developed responsive and reusable UI components using **Tailwind CSS** and **Radix UI**, and handled API communication using **Axios** and **GraphQL** (queries, mutations).
- Developed and maintained **RESTful APIs** using **ASP.NET Core**, implementing authentication and authorization with **ASP.NET Identity** and **OAuth 2.0**, and managing data access with **Entity Framework Core**, ensuring validation and secure database interactions.
- Built scalable, type-safe forms using **React Hook Form** and **Zod**, ensuring efficient state management and reliable validation.
- Collaborated within a **Scrum team**, using **Git** for version control and contributing to **Agile** development cycles.

EDUCATION

Bachelor’s degree in Information Technology
UA • University of Angers• Angers,France• 09/2024-Present

Skills: **Data Structures and Algorithms(C++)**, **Advanced Python**, **Advanced Math**

Bachelor’s degree in Information Technology
BTU • Business and Technology University • Tbilisi,Georgia • GPA: 3.4 • 2022-2024

Skills: **Python + Flask**, **Object Oriented Programming**, **CCNA**, **Android Development**, **Linux**, **JVM**, **.NET Framework** and **C#**, **Web Development (HTML, CSS, JavaScript, React)**,**Databases**, **SQL**,**NoSQL**

Exchange Semester in Computer Science
Universidade de Vigo • Vigo,Spain • 04/2024-07/2024
Erasmus+program
Skills: **Python + Qt**, **JVM**, **PHP+Laravel**

PERSONAL PROJECTS

Coffee Shop E-Commerce Store
An online shop for a coffee brand, featuring product listings, a shopping cart, and a clean, user-friendly interface. The project is still in progress, with core features and UI already implemented.
Technologies used: **React (TypeScript)**, **Redux Toolkit**, **React Query**, **React Hook Form**, **Zod**, **Supabase**, **Git**, **REST APIs**.
